

Design & Innovation Center

Chairman's Message

We have been associated with Education institutes with a history of more than 50 years. Over the years we have covered many areas of education and age groups, providing formal and all rounded education to students from various social backgrounds. Our aim is to continue expanding our bouquet of institutions year on year.

Looking at the global scenario, today those countries with good design have been able to cross more continents than those who worry little about how a product or

service functions or looks, therefore it is important to nurture these skills of our next generation and bring them to a global level.

With Khyati School of Design we wish to deliver well rounded designers, who will specialize in a particular area of design, and yet are able to come up with easy, user friendly, trendy and classic solutions, aware of national sensibilities and global expectations.

Come enlighten your future and become a part of the Khyati family.

- Kartik Patel

Khyati Foundation

Nurturing education since 50 years

Khyati Foundation is an umbrella organization with education at its core and has been fostering institutes since more than 50 years.

Our bouquet of institutions provides education from KG to PG under one banner providing seamless education from basic schooling to professional and vocational courses, at diploma and degree level.

Currently our institutes include Khyati Institute of Integrated Law, Institute of Science, School of Nursing, College of Nursing, College of Physiotherapy, Institute of Valuation and School of Design. These campuses are spread over various locations in and around Ahmedabad, and are friendly, green and environmentally conscious spaces that provide an uncluttered ambience for learning.

We provide extracurricular activities to ensure students develop a wholesome education, not limiting them to activities on campus but also taking them on field trips, industrial visits, trade fairs and inter institutional competitions within the city, state, country and beyond. therefore our campuses provide bus services, hostel facilities, specialized laboratories, audio visual facilities, communication skills and library.

About KSD

Design is the emerging professional domain that students can choose. On the other hand the Indian consumer is becoming more aware and demanding of well designed, quality products & services that are user friendly.

Considering this, Khyati School of Design has been set up to provide quality education to aspiring designers. Set in a green campus, specially designed for design learning, to hone the senses, Khyati School of Design will look at global trends in teaching methods and curricula and apply localized versions of the same. Our faculty is experienced with several years in design education and professional fields. They are well travelled and exposed to the ways of the world and keep abreast with current educational trends as well as industry requirements. We believe in promoting inter-disciplinary and experiential learning and therefore will provide many opportunities for exposure on a real-time basis by encouraging participation in activities beyond the class room.

Design is applicable to every area of society and life. At Khyati School of Design we offer design courses in Visual Communication, Industrial Product, Interior & Furniture , Fashion & Costume and Lifestyle Accessory. Ensuring our students future, the school will actively build networks with Industry associations, design studios and companies paving the way for mutually beneficial placements.

Bachelor Degree (BDes)
Fashion & Costume Design
 Duration : 4 Years

Fashion & Costume Design

4 years Duration (8 Semesters fulltime study program)

Understanding fabric, textiles in relation with human proportions is a prerequisite for any fashion designer. Designing for the seasons, keeping the cultural context and climatic conditions in mind, and using the right fibre for the occasion ensures wearable and comfortable clothing.

Fashion and Costume requires knowledge of fabrics, hand and machine manufactured techniques, weaves and printing, handcrafted and machine produced. Natural fibre and dyes knowledge as well as technical and smart fabrics, modern printing methods are introduced to the students. Embellishing of clothes and couture, introduction to embroidery styles and methods will also be taught by bringing them in contact with masters and living legends of the field.

Highlights of the program

- Fashion Design Fundamentals
- Fashion Photography
- Humanities & Design
- History of Fashion Evolution & Trends
- Makeup & Styling
- Media & Fashion PR
- Fashion Marketing
- Design Criticism
- Fabric Sciences
- Fashion Production
- Event Planning & Theme Design
- Boutique & Management Practices
- Traditional Textile

Bachelor Degree (BDes) Lifestyle Accessory Design

Duration : 4 Years

Lifestyle Accessory Design

4 years Duration (8 Semesters fulltime study program)

Lifestyle Accessory Design is a unique degree program offered by Khyati School of Design. It has a well-articulated curriculum that encompasses an entire range of lifestyle accessories like Jewelry, Handbags, Footwear, Timewear, Eyewear, Interior Accessories, Handicrafts, Playful Accessories and Visual Merchandising.

Way of life - manner of living. The style in which a person or groups of people pursue their life is known as lifestyle. There are many factors like attitude, habits, economic level, moral values, interests etc., that influence an individual's lifestyle.

Products that are designed to appeal to a consumer by association with a desirable lifestyle.

The course structure has been premeditated in such a manner that it develops cohesive proficiency in problem solving, design process, manufacturing processes, user - centricity, fashion forecasting & trend studies, marketing & management in the domain of lifestyle accessories.

Highlights of the program

- Sketching & Rendering
- Digital Drawing
- Form Semantics
- Materials, Processes & Techniques
- Craft Studies
- Visualization Skills
- History
- Fashion Forecasting & Trend Analysis
- Photography & Product Styling
- Kinematics
- Packaging
- Brand Identity
- Anthropometry & Ergonomics
- Corporate Gifting Accessories

Bachelor Degree (BDes) Textile Design

Duration : 4 Years

Textile Design

4 years Duration (8 Semesters fulltime study program)

Food, shelter and clothing are the basic needs of everyone. Clothing is made from textiles and our homes are made more comfortable and attractive by the use of textiles.

Textiles have such an important bearing in our daily lives that everyone needs to know something about them. From the earliest times, people have used textiles of various types for covering or modesty, warmth, personal adornment, to display personal wealth and even for biomedical and technical purpose.

Textiles span everything from design for fashion and interiors, to industrial products and gallery exhibitions.

At Khyati School of Design, the Textile Design curriculum is designed to immerse yourself in the study of the structure, color, and patterning of cloth through imagery development, dyeing, repeat pattern design, textile construction and surface embellishment.

We prepare you for the rapidly evolving world and develop your own research and design approaches and push the boundaries of current textile practice. Skilled innovators will always have the edge.

Highlights of the program

- Fiber to Fabric
- Fabric Structure
- Weaving
- Printing
- Dyeing
- Surface Embellishment
- CAD for Textiles
- Traditional Textiles
- Craft Research
- Fabric Quality
- Pattern Making
- Entrepreneurship Management
- Sustainable Design
- Styling
- Home Furnishing
- Dobby & Jacquard
- Industrial Training

Bachelor Degree (BDes) Industrial Product Design

Duration : 4 Years

Industrial Product Design

4 years Duration (8 Semesters fulltime study program)

A product designer must have excellent interpersonal skills to unearth the need of certain products. Being able to think strategically & analytical skills are prerequisite for problem solving. Integration of technology, electronics and engineering is required for many household and industrial products.

Products today have to meet many requirements and compliances. They must be energy efficient which goes without saying, they should be sustainable, comply with evolving environmental norms which is possible when the lifecycle assessment is carried out to determine their reusability and recyclability. Systems thinking, ergonomics, inclusivity for all kinds of users yet aesthetically appealing and cost effective in use of materials and technology are the inputs that a future Industrial / Product designer is expected to bring to the table by default.

To achieve this level, it is imperative that the methodology is as hands on as possible, exposure to processes and development, involving inter-disciplinary teams working simultaneously to achieve the best results will be encouraged.

Highlights of the program

- Product Design Fundamentals
- Photography
- Humanities & Design
- Materials & Processes
- History of Industrial Design
- Anthropometry & Ergonomics
- CAD & Digital Rendering WACOM
- Manufacturing Processes
- Package Designing
- Design Ethnology
- Sustainable - Green Design
- Creative Intervention
- Product Innovation & Patenting

Bachelor Degree (BDes) Visual Communication

Duration : 4 Years

Visual Communication

4 years Duration (8 Semesters fulltime study program)

Visual Communication entails aspects of audio visual forms of communication; including Graphic design, Film media, animation, print technology, typography, font design, packaging, etc. The course enables students to understand, conceptualize and execute projects and campaigns for promotional activities or to tell stories. Information technology encourages the exploration in the field of computer graphics, multimedia and web design. Students are trained to use their senses to create aesthetical sensible and meaningful designs for the chosen media.

Digital technology has changed the way we perceive the world and is an integral part of the course delivery. The combination of art, science and technology has transformed human experience. Blogs, Social Media, Virtual Reality, Gaming and other online content have changed the way we communicate across cultural and geographical lines. Government, business, industry, marketing, branding, everyone is using this mode of visual communication that is a mix of graphic, film, typography and print. The input in Multi-Media provide the students new challenges with technological advancements in the field of Visual Communication.

Highlights of the program

- Information Graphics
- Photography
- Instructional Design
- Copy, Storytelling & Scriptwriting
- Content Strategy
- Virtual Reality
- Typography
- Interactive Workshops
- Animation
- Documentary & Feature Films
- Editing & Production
- Print & Packaging
- Advertising & Social Media
- Signage & Exhibition
- Brand Identity Design
- Broadcast Graphics & Film Titles
- Marketing Communications
- Interactive Workshops

Bachelor Degree (BDes) Interior & Furniture Design

Duration : 4 Years

Interior & Furniture Design

4 years Duration (8 Semesters fulltime study program)

A good interior designer has to be in tune with their client. Without understanding the need, purpose, context and personal preferences of an individual or a group of persons, it is just another space. Therefore the focus at Khyati School of Design will be to first expose the students to understand human psychology, sociology and anthropology & then exposure to the elements like space, colour, furniture, light, texture, services, etc.

The goal here is not to be excellent craftsmen/women, but to be excellent designers who design using their senses and create livable and working spaces for the senses. Comfortable, ergonomic, economical in use and maintenance a place where one can find solace from the chaos of the outer world. Observation skills will be honed, empathy towards others in tandem with one's own sensibilities and understanding of design and aesthetics. The preparation of a brief will be central to the process employed. General knowledge about lifestyles in various parts of world, sound and light response to space and moods. The method of education will be hands on and experiential, learning by doing.

Highlights of the program

- History of Craft, Art & Architecture
- Heritage & Conservation Studies
- Craft Techniques
- Exploring & Application of Materials
- Anthropometry & Ergonomics
- Drawing & Visualization
- Public, Private & Personal Spaces
- Exhibition spaces
- Corporate spaces
- Conceptualization
- 3D Software
- RSP & Industrial Design

Master Degree (M.Des.) Fashion & Styling

Duration : 2 Years

Fashion and Styling

2 years Duration (4 Semesters fulltime study & research program)

Fashion Clothing is exploring fabric, textile and patterns creatively merged with silhouette and image makeover. Understanding human proportions to create charismatic wearable, add to the confidence and personality of an individual. Fashion and styling serves a step above to understand add on values to wearable clothing. Appreciating & utilizing craft or curating fashion shows. Creating a brand new garment to convert it into a theme based professional photo-shoot to boost the Fashion as a brand or a statement.

Previous decade's turn was textile and fashion which has emerged today as fashion and styling, thus styling is an equally important element to complement the value of fashion clothing.

This course gives a holistic understanding of the fashion world & styling. It not only trains you to understand the pulse of ever changing trends & styles but gives you a personalized mentoring from industry experts and gives a unique research scholarship opportunity right from the first year till the end of the course.

Highlights of the program

- History of fashion and styling
- Photography
- Elements of fashion
- Red carpet styling
- Costume design project
- Retail design
- Window display design
- Fashion accessory design
- Personal styling
- Image makeover
- Commercial styling
- Latest Trends
- Fashion psychology
- Fashion forecasting
- Fashion marketing
- Internship & Placements

Master Degree (M.Des.) User Experience Design

Duration : 2 Years

User Experience Design

2 years Duration (4 Semesters fulltime study & research program)

Our Masters of design in User Experience (UI-UX) program is a unique collaboration with India's leading UX Design and thinking organization, IMAGINXP. UX design is the process of creating digital products by focusing on meaningful and personal experiences. This program is crafted to provide education in design and technology to bring out easy to use and simple products.

Smart digital aided products from small echo dot to digitally driven Tesla cars are the best examples of the perfect blend of Ux Designers Performing as important team players in any smart products industry today.

UI-UX Designers with a focus on digitalization and digitally smart products are employed by all industry segments including leading IT services, solutions, product and consulting organizations, financial services, banking, insurance media, education and hospitality. Along with a holistic training this program gives an advantageous opportunity to get hands on mentoring by industry experts with assured participation in live projects. It also offers a very unique research scholarship right from the first year till the end of the course.

Highlights of the program

- History of User experience
- Fundamentals of Design
- Design Thinking & Innovation
- Evolution of UX
- Cognitive Design & Ethnography
- UX Design
- Information & Data study
- Digital Experience Strategy
- User interface Design
- Interaction & UI Design
- Customer experience & survey
- UX Design for upcoming technologies
- Omnipresent & customer experience
- Service design & enterprise UX
- Internship & Placement
- Imagin 6D UX Process
